“As an aspiring physician, I believe that research and medicine go hand-in-hand. It has allowed me to explore my areas of interest in-depth while immersed in an environment that encourages critical thinking and collaborative learning. I believe that this research experience will one day allow me to be a better doctor.”

JULIE NGUYEN

SUMMER RESEARCH SCHOLAR 2016

CURE

Cancer Undergraduate Research Experience

Think different with us. Apply for the 2019 Summer Research Scholars Program at the Stephenson Cancer Center.

During the eight-week paid summer program, students receive hands-on training and experience in research laboratories located on the OU Health Sciences Center campus.

This program is open to undergraduate students who have completed between 60 and 100 credit hours.

HOW TO APPLY

Learn more about applying for the Cancer Undergraduate Research Experience at stephensoncancercenter.org/summerscholars.

You'll need a letter of interest, current transcript, and two letters of recommendation.

For questions, call the Events and Special Programs office at (405) 271-2537.
